

October 28, 2009

Dear SEPTA Vendor:

As you may be aware, there is potential for a work stoppage within portions of the Authority. As a result, the following applies:

- Deliveries to City and Suburban Transit Division locations, SEPTA's Headquarters (1234 Market) and the Wyoming and Wheatshaf warehouses should be completed before Friday, October 30, 2009. Deliveries after this date should not be made until further notice from the Authority. A listing of these impacted locations is attached.
- Deliveries to Regional Rail locations will continue to be received, as these areas of the Authority's operation are not impacted by the potential work stoppage. These locations include SEPTA's Liberty, Overbrook, Wayne Junction, Roberts, Frazer and Powelton facilities. The attached list also contains addresses for these locations.
- Regarding procurement and contracts activity, the Authority expects that all Pre-Bid Meetings and Bid Openings will continue to be held at the 1234 Market Street Headquarters throughout the period of potential work stoppage. Access to the building will be via the western-most entrance of the building.

Should you have any questions regarding pending or planned deliveries, please call our Wyoming personnel at the numbers listed below. Your patience and understanding preceding and during this potential work stoppage period is appreciated.
